TANMAY PANDEY

Software Development Engineer | Full-Stack & Backend Developer
Haldwani, Uttarakhand, India | +91 9027420929 | tanmaypandey4243@gmail.com Portfolio: tanmaypandey.vercel.app | GitHub: github.com/tanmaypande

SUMMARY

Computer Science undergraduate (B.Tech CSE, AI & ML) and SDE Intern with hands-on experience building full-stack, multi-tenant web applications and REST APIs using React, Node.js, Express.js, Prisma, and PostgreSQL. Experienced in third-party API integration (Meta WhatsApp Cloud API), JWT authentication, role-based access control, and relational database design. Seeking SDE, full-stack, or backend internship and entry-level roles.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, C, SQL
Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, CustomTkinter
Backend & APIs: Node.js, Express.js, Flask, FastAPI, REST APIs, Webhooks, Meta WhatsApp Cloud API, Socket.IO
Databases & ORM: PostgreSQL (Neon), SQLite3, Prisma ORM, SQLAlchemy, Alembic
Tools & Deployment: Git, GitHub, VS Code, Vercel, Render, pytest
AI/ML: Generative AI, Large Language Models (LLMs), AI Agents

EXPERIENCE

Software Development Engineer (SDE) Intern, BUIMB Research, Haldwani | Jul 2026 – Aug 2026
- Developed a WATI-inspired WhatsApp CRM and messaging platform (React, Node.js, Express.js, Prisma ORM, PostgreSQL on Neon), building REST APIs for authentication, contacts, conversations, templates, and broadcasts.
- Integrated Meta WhatsApp Cloud API (per-workspace credentials, templates) and webhook verification.

AI Web Developer Intern, InAmigos Foundation | May 2026 – June 2026
- Contributing to web development tasks within an AI-focused internship.

Google Student Ambassador, Google | Aug 2025 – Jan 2026
- Represented Google on campus; delivered 5+ workshops on Generative AI and prompt engineering to 500+ students.
- Organized an AI Agents webinar attended by 60 students and collected feedback from 300 developers.

PROJECTS

WhatsApp Business CRM | Full-Stack Developer | github.com/tanmaypande/whatsapp-business-api
React, Vite, Node.js, Express.js, Prisma ORM, PostgreSQL (Neon), Socket.IO, Meta WhatsApp Cloud API, Vercel
- Built a multi-tenant CRM with workspace-level data isolation, JWT access/refresh-token authentication with email OTP verification, and Super Admin / Admin / Agent roles on a 13-model Prisma schema.

Pharmacy Management System | Developer | github.com/tanmaypande/PHARMacy-management-system
Python, CustomTkinter, FastAPI, SQLAlchemy, PostgreSQL, Alembic, Pydantic, pytest
- Designed a modular desktop application with a layered architecture (UI, API client, FastAPI routes, service layer, repository layer, PostgreSQL); the UI never accesses the database directly.
- Implemented billing as an atomic checkout using row-level locking that rejects expired batches, deducts stock, applies discount and tax with Decimal precision, and generates sequential invoice numbers.
- Built medicine, category, and batch-level inventory modules with expiry and low-stock tracking, a KPI dashboard, Alembic migrations, pytest tests, and accessibility options (high-contrast mode, scalable fonts).

Railway Reservation System | Lead Developer | Apr 2026
- Led a 3-member team's backend: seat availability, authentication, booking workflows, and SQL operations.

Expense Tracker | Backend & Database Lead | Dec 2025
- Built a Flask/SQLite3 app with monthly limits, transaction history, relational design, and REST API integration.

Poshan-Pahad AI | AI Developer | Jan 2026
- Contributed frontend work to a multimodal indigenous-food and nutrition AI concept (Generative AI, LLM concepts).

EDUCATION

B.Tech, Computer Science & Engineering (AI & ML), Amrapali University, Haldwani | 2024 – 2028 | CGPA: 8.49
Intermediate (PCM), Cynthia Sr. Sec. School | Apr 2023 – Mar 2024
